# PREMIUM & SUSTAINABLE PACKAGING SOLUTIONS

Innovative Flexible Packaging for Your Brand.

## ABOUT US

Shivaya Flexipack is a modern manufacturing unit specializing in high-quality flexible packaging solutions, designed to meet the evolving needs of today's packaging industry. Based in Vadodara, Gujarat, we combine advanced infrastructure, skilled technical expertise, and strict quality systems to deliver reliable and cost-effective packaging materials.

With a strong focus on food-grade and hygienic production, our facility operates in a controlled manufacturing environment, ensuring packaging materials suitable for direct contact with food and sensitive products.

We serve a wide range of industries including food & beverages, dairy, frozen foods, pet food, agro-products, and industrial applications.

Driven by innovation and consistency, Shivaya Flexipack is committed to supporting our customers with performance-driven packaging that enhances shelf life, safety, and brand value.

### OUR STRENGTH

Our strength lies in advanced manufacturing infrastructure, skilled technical teams, and strict quality control systems. We ensure consistent performance, precision, and reliability in every packaging solution we deliver.

### OUR APPROACH

We are committed to delivering food-safe, high-quality, and export-ready packaging, while maintaining transparency, consistency, and long-term partnerships with our customers.

### OUR COMMITMENT

We follow a customer-first and solution-driven approach, understanding product requirements, shelf-life needs, and machine compatibility before developing customized laminate structures.

# Packaging Expertise Across Industries

Frozen French Fries, Frozen Vegetables & Snacks  
Ready-to-Cook & IQF Food Products

PE, PET / PE, PET / LLDPE, BOPA / PE, PET / MET  
PET / PE, PET / AL / PE, BOPA / PE / EVOH / PE

- Excellent seal integrity at low temperatures
- Good puncture and tear resistance
- Maintains flexibility in frozen conditions
- Good clarity for product visibility
- Food-grade, hygienic & odour-free

Packaging for Frozen & IQF Foods Products

Milk, Yogurt, Cheese, Butter, Paneer etc.

PE, PET / PE, BOPP / PE, PET / AL / PE, PET / MET  
PET / PE, PET / MET BOPP / PE, PET / PE / EVOH

- Strong barrier against oxygen, light, and odour transfer
- Excellent seal integrity for liquid and semi-solid dairy
- Suitable for chilled storage and extended shelf life
- Food-grade materials compliant with global standards

Packaging for Dairy Products

Ice candy, Choco bar, Chocolate ice cream bars,  
Frozen dessert sticks

BOPP / CPP, PET / CPP, PET / PE, MET BOPP / PE,  
PET / MET PET / PE, PET / AL Foil / PE

- Performs reliably at sub-zero temperatures
- Strong seals & leak resistance
- Gloss, matte & metallic finish options
- High-quality print for premium brand appeal

Packaging for Dairy Products

## PREMIUM PACKAGING ELEVATING YOUR BRAND

INNOVATIVE & RELIABLE SOLUTIONS

Chips, Wafers, Crackers, Popcorn, Extruded  
snacks, Processed Nuts, and Namkeen

BOPP/BOPP, BOPP/PP, BOPP/EX/PE/MPET/PE,  
PET/PE/Alu Foil/PE, PET/MPET/PE, and  
PET/MBOPP

- Compatible with nitrogen flushing and MAP
- Excellent moisture and oxygen barrier for crisp retention
- Strong seals for pillow packs and large snack bags
- Matte, gloss, metallic, and window finish combinations available

Packaging for Snacks & Namkeen

Biscuits, cookies, chocolate bars, candy,  
sticks, chewing gum, and toffees.

BOPP / CPP, PET / PE, MET BOPP / PE, PET / MET  
PET / PE.

- Effective barrier against moisture, oxygen, and heat
- Smooth machinability on flow-wrap & twist-wrap lines
- High gloss, matte, metallic, and paper-look finishes
- Strong seals and fold memory for neat pack presentation

Packaging for Chocolate

Bread, buns, biscuits, cakes, rusks, pastries, and  
bakery snacks.

BOPP / CPP, BOPP / PE, PET / PE, MET BOPP / PE,  
PET / MET PET / PE, BOPP / BOPP, Paper / PE

- Controls moisture to prevent drying or sogginess
- Smooth machinability on flow-wrap and FFS machines
- Clear window, gloss, matte, and paper-look finishes
- Food-grade materials ensuring hygiene and safety

Packaging for Bakery Products

Atta, rice, pulses, flour, spices, masala, sugar, salt, dry grocery products

BOPP / CPP, BOPP / PE, PET / PE, PET / MET  
PET / PE, BOPP / MET CPP, PET / AL Foil / PE

- Excellent moisture & aroma barrier
- Compatible with VFFS / FFS machines
- Gloss, matte & window finish options
- Strong seals for leak-free packs

## Packaging for Industrial & Agro Packaging

Pool salt, industrial salt, fertilizers, seeds, agro-chemicals, minerals, powders & granules

PET / PE, BOPP / PE, PET / MET PET / PE,  
PET / AL Foil / PE, PET / LLDPE, BOPA /  
PE, PET / PE / EVOH

- Excellent moisture & contamination barrier
- High tear & puncture resistance
- Suitable for heavy-weight filling
- Gloss, matte & plain industrial finish options

## Packaging for Home Care

Detergent powder & liquid, dishwash liquid, floor cleaner, toilet cleaner, fabric softener, disinfectants

PET / PE, BOPP / PE, PET / MET PET / PE, PET  
/ AL Foil / PE, PET / LLDPE, PET / PE / EVOH

- High seal strength & leak resistance
- Chemical-resistant laminates
- Suitable for powders & liquids
- Gloss, matte & metallic finish options

## Packaging for Dry Fruit & Powder

Almonds, cashews, raisins, pistachios, dates, protein powders, spice powders, nutrition blends

PET / PE, BOPP / CPP, PET / MET PET / PE,  
PET / AL Foil / PE, BOPP / MET CPP

- High moisture and oxygen barrier for extended shelf life
- Excellent aroma retention for spice and nut-based powders
- Strong seal integrity to prevent leakage and infestation
- Premium print quality for retail-ready presentation

Dry pet food, treats, chews, supplements, pet snacks

PET / PE, BOPP / PE, PET / MET PET / PE,  
PET / AL Foil / PE, BOPA (Nylon) / PE

- High moisture and oxygen barrier to protect nutrition
- Excellent puncture resistance for kibble and treats
- Strong seals for leak-free, long-term storage
- Suitable for small packs and large-volume pet food bags

## Packaging for Pet Care

## Manufacturing Infrastructure & Machinery

At Shivaya Flexipack, our manufacturing setup is equipped with modern, high-speed machinery to ensure consistent quality, precise printing, strong lamination, and accurate slitting, meeting both domestic and export packaging standards.

### 8 Colour Rotogravure Printing Machine

Designed for high-definition printing and colour consistency, this machine delivers excellent print quality across a wide range of flexible packaging substrates.

#### Key Capabilities:

- Up to 150 meters/minute printing speed
- 8-colour high-precision rotogravure printing
- Web width up to 1000 mm
- Suitable for PET, BOPP, LDPE & laminated films
- Advanced drying system for solvent-based inks
- Accurate registration and stable web handling

### Solventless Lamination Machine

Our solventless lamination facility enables eco-friendly, high-strength bonding for multilayer laminates with excellent clarity and performance.

#### Key Capabilities:

- High-speed lamination up to 350 meters/minute
- Working width up to 1000 mm
- Precise adhesive coating with auto mixing & dosing
- Water-heated rollers for controlled lamination
- Suitable for PET, BOPP, MET films, LDPE, LLDPE
- Strong bond strength for food & non-food applications

### Slitting Machine

Ensures accurate slitting and rewinding with uniform tension control for smooth downstream packaging operations.

#### Key Capabilities:

- Operating speed up to 200 meters/minute
- Web width up to 1200 mm
- Automatic tension control with load cell feedback
- Shaftless unwinding & air-shaft rewinding
- Razor blade trimming system with trim blower
- Suitable for BOPP, PET, LDPE & laminated films

## Advanced Quality Control & Innovative R&D Solutions

We maintain a dedicated Quality Control Lab to ensure every roll meets required specifications and food safety standards.

We are equipped with state-of-the-art instruments to ensure the highest quality of our flexible packaging materials:

- Heat Jo Sealer
- Hot Air Circulating Oven
- Leakage Chamber
- Tensile Tester
- Dart Impact Tester
- Weighing Scale for GSM Check

### Quality Checks Include:

- GSM & thickness testing
- Seal strength testing
- Visual & print inspection
- Barrier property evaluation

### KEY FEATURES

- Dedicated, modern in-house quality laboratory
- Skilled and qualified technical team with strong materials science background
- Advanced testing systems designed for accuracy and consistency, minimizing manual dependency
